

SHIRLEY N. WEBER, Ph.D.  
SECRETARY OF STATE

# DIVERSITY ON BOARDS

## March 2022 Report

Corporations Code Sections 301.3 and 301.4

# 2022 Report Methodology

The March 2022 Report has been created by using publicly available information provided in annual California and annual federal filings by corporations. The report lists publicly held corporations that identified a principal executive office in California on their annual report filed with the United States Securities and Exchange Commission (SEC) pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 (Form 10-K) during the 2021 calendar year. The report identifies which of those publicly held corporations reported compliance with Corporations Code sections 301.3 and 301.4 on their 2021 Publicly Traded Corporate Disclosure Statement filing with the Secretary of State.

The information and statistics provided in the March 2022 Report were generated by a search of the SEC's Electronic Data Gathering, Analysis, and Retrieval system (EDGAR), and the California Secretary of State's bizfile California Publicly Traded Disclosure Search. The dates searched were January 1, 2021 through December 31, 2021.

The 2021 Publicly Traded Corporate Disclosure Statement form asked publicly held corporations to select a range representing the total number of directors on their Board of Directors as well as a range representing the total number of female directors and a range representing the total number of directors from an underrepresented community. Information about a publicly held corporation's Board of Directors, including the number of female directors and number of directors from an underrepresented community, may be available by viewing such corporation's Publicly Traded Corporate Disclosure Statement.

Images of filed Publicly Traded Corporate Disclosure Statements, as well as other filings for corporations, limited partnerships and limited liability companies, are available to view for free through the Secretary of State's [Business Search](#) by searching by entity number or by entity type and entity name. For information on ordering copies of the official business entity records for a particular corporation, please refer to [Information Requests](#).

The deadline for filing the Publicly Traded Corporate Disclosure Statement is 150 days after the end of a corporation's fiscal year. Board composition for a corporation may change after filing its annual required Publicly Traded Corporate Disclosure Statement; however, that change will not be reflected in the March 2022 Report unless the corporation filed an updated Publicly Traded Corporate Disclosure Statement with the Secretary of State's office during the 2021 calendar year. In addition, although every attempt has been made to ensure information contained in the March 2022 Report is accurate, the reporting methodology requires manually searching and recording information that is self-reported by others to multiple sources. Therefore, the Secretary of State's office makes no representations as to the accuracy or completeness of the March 2022 Report, and is not responsible for any loss, consequence, or damage resulting directly or indirectly from reliance on the accuracy, reliability, or timeliness of the information that is provided. All such information is provided "as is."

# Summary of March 2022 Report 2021 Diversity on Boards Data

(Corporations Code Sections 301.3 and 301.4)

Total number of publicly held corporations listing a California principal executive office on their 2021 SEC 10 K filing (" <b>impacted corporations</b> ")	<b>716</b>
