March 2020 Report
Corporations Code Section 301.3

Report Methodology

The July 2019 Report and March 2020 Report have been created by using publicly available information provided in annual California and annual federal filings by corporations, as well as information provided by the New York Stock Exchange (NYSE), NYSE American (formerly known as the American Stock Exchange or AMEX and more recently as NYSE MKT), National Association of Securities Dealers Automated Quotations (NASDAQ), and other sources available on the internet, including company websites.

The Secretary of State posted a benchmark report on July 1, 2019, listing all publicly held corporations that stated a principal executive office in California on the annual report filed with the United States Securities and Exchange Commission (SEC) pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 (Form 10-K) during the 6-month period of January 1, 2019 through June 30, 2019. The July 2019 Report also listed all publicly traded corporations identified through the Publicly Traded Disclosure Search on the Secretary of State's website that reported having at least one female director on their annual Corporate Disclosure Statement filings with the Secretary of State.

The March 2020 Report has been created by combining information in the July 2019 Report with data for the additional 6-month period of July 1, 2019 through December 31, 2019.

The information and statistics provided in the reports were generated by a search of the SEC's Electronic Data Gathering, Analysis, and Retrieval system (EDGAR) for corporations listing a principal executive office in California on their SEC Form 10-K filing. The Secretary of State's office also searched information provided in the annual Corporate Disclosure Statements filed by publicly traded corporations pursuant to California Corporations Code sections 1502.1 (domestic) and 2117.1 (foreign). The dates searched were January 1, 2019 through December 31, 2019.

Note that federal filing deadlines for filing the annual SEC Form 10-K (60, 75 or 90 days after the end of the fiscal year) differ from the California deadline for filing the Corporate Disclosure Statement (150 days after the end of the fiscal year) so there may be gaps in available data.

Excluded from the reports were limited partnerships, limited liability companies, other types of filers that are not separately incorporated, and reporting corporations that are not listed on the NYSE, NYSE American or NASDAQ exchanges.

Although every attempt has been made to ensure that the information contained in the reports is accurate, the research is based on manually searching for and recording information reported by others in multiple sources. The Secretary of State's office is not responsible for any loss, consequence, or damage resulting directly or indirectly from reliance on the accuracy, reliability, or timeliness of the information that is provided. All such information is provided "as is." Images of filed documents for corporations, limited partnerships and limited liability companies are available for free through the [Business Search](#) by searching by entity number or by entity type and entity name. For information on ordering copies of the official business entity records for a particular corporation, please refer to [Information Requests](#).

Summary of March 2020 Report 2019 Women on Boards Data (Corporations Code Section 301.3)

Total number of corporations filing Corporate Disclosure Statements in 2019	653
Total number of publicly held corporations listing a California principal executive office on their 2019 SEC 10-K filing (" impacted corporations ")	625
Total number of impacted corporations that filed a 2019 Corporate Disclosure Statement	330
Total number of impacted corporations that reported compliance with 2019 Women on Boards requirements on their 2019 Corporate Disclosure Statement	282
Total number of publicly <i>traded</i> (but not publicly held) corporations listing a California principal executive office on their 2019 SEC 10-K filing that reported compliance with 2019 Women on Board requirements on their 2019 Corporate Disclosure Statement	37

Additional Note on Reporting Metrics:

Senate Bill 826 went into effect on January 1, 2019. Prior to that date, the Secretary of State did not collect specific data on publicly held corporations. As a result, the Secretary of State does not have the historical data to report on a publicly held corporation's movement of headquarters or delisting of shares from a particular market or exchange. The Secretary of State's office is currently collecting this data and the following reporting metrics required by Corporations Code section 301.3(d) will be included in the annual 2021 report:

Total number of publicly held corporations that moved headquarters from another state into California during the preceding calendar year
Total number of publicly held corporations that moved headquarters out of California into another state during the preceding calendar year
Total number of impacted corporations during the preceding year that are no longer publicly traded
