

DR. SHIRLEY N. WEBER
SECRETARY OF STATE

WOMEN ON BOARDS

March 2021 Report
Corporations Code Section 301.3

Report Methodology

The March 2021 Report has been created by using publicly available information provided in annual California and annual federal filings by corporations, as well as information provided by the New York Stock Exchange (NYSE), NYSE American (formerly known as the American Stock Exchange or AMEX and more recently as NYSE MKT), National Association of Securities Dealers Automated Quotations (NASDAQ), and other sources available on the internet, including company websites.

The March 2021 Report lists all publicly held corporations that identified a principal executive office in California on their annual report filed with the United States Securities and Exchange Commission (SEC) pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 (Form 10-K) during the 2020 calendar year and identifies which of those publicly held corporations reported having at least one female director on their 2020 Publicly Traded Corporate Disclosure Statement filing with the Secretary of State.

The information and statistics provided in the March 2021 Report were generated by a search of the SEC's Electronic Data Gathering, Analysis, and Retrieval system (EDGAR) for corporations listing a principal executive office in California on their SEC Form 10-K filing. The Secretary of State's office also searched information provided in the annual Publicly Traded Corporate Disclosure Statements filed by publicly traded corporations pursuant to California Corporations Code sections 1502.1 (domestic) and 2117.1 (foreign). The dates searched were January 1, 2020 through December 31, 2020.

The 2020 Publicly Traded Corporate Disclosure Statement form asked publicly held corporations to select a range representing the total number of directors on their Board of Directors as well as a range representing the total number of female directors. Because publicly held corporations were only required to have one female director by December 31, 2020 regardless of the size of their Board of Directors, the March 2021 Report only identifies whether a corporation reported having at least one female director. More information about a publicly held corporation's Board of Directors, including the number of female directors, may be available by viewing such corporation's Publicly Traded Corporate Disclosure Statement.

Images of filed Publicly Traded Corporate Disclosure Statements, as well as other filings for corporations, limited partnerships and limited liability companies, are available to view for free through the Secretary of State's [Business Search](#) by searching by entity number or by entity type and entity name. For information on ordering copies of the official business entity records for a particular corporation, please refer to [Information Requests](#).

Although every attempt has been made to ensure that the information contained in the March 2021 Report is accurate, the research is based on manually searching for and recording information reported by others in multiple sources. In addition, the federal filing deadlines for annual SEC Form 10-Ks (60, 75 or 90 days after the end of the fiscal year) differ from the California deadline for filing the Publicly Traded Corporate Disclosure Statement (150 days after the end of the fiscal year), so there may be gaps in available data. The Secretary of State's office is not responsible for any loss, consequence, or damage resulting directly or indirectly from reliance on the accuracy, reliability, or timeliness of the information that is provided. All such information is provided "as is."

Summary of March 2021 Report 2020 Women on Boards Data (Corporations Code Section 301.3)

Total number of corporations filing Publicly Traded Corporate Disclosure Statements in 2020	606
Total number of publicly held corporations listing a California principal executive office on their 2020 SEC 10-K filing (" impacted corporations ")	647
